

# LOGISTICS

Würth Business Services offers a wide range of the Logistics Support services to ensure a seamless experience of shipment delivery for companies within the Würth Group. We aim to accelerate logistical operations by assisting Logistics teams in executing various processes. We have a team of experienced and well-trained professionals who excel in handling non-core processes.

## FREIGHT COST MANAGEMENT

Freight forwarders send the invoices that contain the cost and the ordered quantity. We provide freight cost management services by evaluating the freight invoices. We check whether the cost mentioned in those invoices is in accordance with the conditions agreed with the logistics service provider. If there are any discrepancies such as over-billing or incorrectly priced shipments, then we contact the suppliers and claim the difference.

## PROCESS FLOW AT WÜRTH BUSINESS SERVICES:

- **Step 1:** Evaluate the invoices received from freight forwarders
- **Step 2:** Check if the cost mentioned in invoices is in line with the conditions agreed with the logistics service provider
- **Step 3:** Solve the discrepancies if any

### BENEFITS:

- Maximize the margins with accurate calculation of total freight costs
- Claim the due amount from forwarders in case of discrepancies
