

PURCHASING

The Purchasing Department of Würth Business Services is equipped with a team of highly experienced procurement and purchasing professionals. The company is instrumental in fulfilling the business-specific requirements by handling different processes related to Purchasing and serving customers across the globe. Among many non-core procurement- and purchasing-related processes handled by the company, Material Requirement Planning (MRP) Tool is one of the major processes.

MATERIAL REQUIREMENT PLANNING (MRP) TOOL

The MRP Tool is focused on planning and placing purchase orders as per the requirement of the customer. During planning stages, the tool determines the appropriate time and price for placing an order. We handle the end to end process from planning and negotiating to placing orders and taking follow-ups for on-time delivery. In this way, the tool helps businesses in making smart decisions and saving costs.

PROCESS FLOW AT WÜRTH BUSINESS SERVICES:

- ◆ **Step 1:** Planning as per the requirements
- ◆ **Step 2:** Negotiating prices with different suppliers
- ◆ **Step 3:** Placing the purchase order or draft a contract
- ◆ **Step 4:** Taking follow-ups with the supplier for timely deliveries

BENEFITS:

- Plan carefully and ensuring the required amount of goods are available every time
- Negotiate prices with different suppliers
- Avail the goods at the best price
