

PRODUCT ARTICLE MASTER

Würth Business Services easily manages thousands of articles and arranges them into the Würth Group hierarchy. Along with arranging articles, we manage end-to-end article-related tasks accurately and diligently. We ensure that the article master data is consistent, complete, and updated.

MAINTAINING ARTICLE ATTRIBUTES

In this process, we check the incorrect or missing attributes of the articles in SAP system. Once incorrect and missing attributes are identified, we update the correct attributes based on article description and norms such as DIN EN ISO 9001.

PROCESS FLOW AT WÜRTH BUSINESS SERVICES:

- **Step 1:** Identify the incorrect or missing attributes of the articles in SAP system
- **Step 2:** Update the correct attributes using article description and norms

BENEFITS:

- Diligent checking for correct attributes
- Accurate and complete information available for further use
